Obaidullah Miakhil

PhD Applicant · Computer Science / Artificial Intelligence

Islamabad, Pakistan · obaidullah.miakhil.khan@gmail.com · +92 318 917 5285
www.obaidullah.online · LinkedIn · github.com/obaidullah-miakhil

MS Artificial Intelligence candidate (CGPA 4.00/4.00) with a Q1 journal publication in healthcare AI and three first-author papers under review in medical imaging AI, trustworthy deep learning and forecasting evaluation.

RESEARCH INTERESTS

Medical image analysis · Healthcare AI · Weakly supervised learning · Uncertainty quantification and selective prediction · Trustworthy and clinically safe AI · Computer vision · Sequence modeling · Evaluation methodology for deep learning

EDUCATION

M.S. Artificial Intelligence — Expected Feb 2027
Pak-Austria Fachhochschule: Institute of Applied Sciences and Technology (PAF-IAST), Haripur, Pakistan

- CGPA 4.00/4.00 (two semesters completed)
- Thesis: *Weakly-Supervised Localization and Subtype Categorization of Intracranial Hemorrhage: A Two-Stage Cascade Architecture*
- Supervisor: Dr. Muhammad Mohsin Khan Jadoon

B.S. Computer Science — Aug 2021 – May 2025
PAF-IAST, Haripur, Pakistan

- CGPA 3.16/4.00 · 132 credits · Allama Iqbal Scholarship (HEC Pakistan)
- Final Year Project (supervisor: Dr. Muhammad Mohsin Khan Jadoon): *AI-Based Prediction of Insurance Claim Denials & Management* — denial-prediction model at 93% accuracy plus a rule-based claim scrubber, developed with Cube Healthcare (USA) and published in *Frontiers in Health Services* (Q1, 2026)

PUBLICATIONS

Published Journal Article

1. Jadoon, M. M., **Miakhil, O.**, Chakari, N. R., Qureshi, M. B., Ullah, I., Haider, S. A., & Ur Rehman, M. (2026). **A machine learning framework for predicting healthcare insurance claim denials.** *Frontiers in Health Services*, 6, 1927175. Q1 · SJR 2025 doi:10.3389/frhs.2026.1927175

Under Review (First Author)

2. **Miakhil, O. Silent Blank Frames and Patient Clustering in Weakly Supervised Intracranial Hemorrhage Detection on CT.** *Under review, international journal, 2026.*
3. **Miakhil, O. Sequence-Aware Multi-Label Categorization of Intracranial Hemorrhage with Calibrated Predictive Uncertainty and Selective Refusal.** *Under review, international journal, 2026.*
4. **Miakhil, O. Benchmark Symmetry in Deep Learning for Financial Return Forecasting: Evidence from Eight Equity Indices.** *Under review, international journal, 2026.*

RESEARCH EXPERIENCE

Research Engineer — Sino-Pak Center for Artificial Intelligence (SPCAI), PAF-IAST — Jul 2025 – Present

- Develop weakly supervised intracranial hemorrhage (ICH) detection and localization on head CT under Dr. Muhammad Mohsin Khan Jadoon (Papers 2–3).
- Build sequence-aware multi-label subtype classification with calibrated uncertainty and selective refusal for clinical safety.
- Process large-scale RSNA DICOM data: HU windowing, patient-level stratified splits, EfficientNet-B2 + BiLSTM, focal loss, MC Dropout and Grad-CAM++ localization evaluated on BHX.

Independent Research — Deep learning for financial forecasting — 2025 – 2026

- Evaluated deep learning return-forecasting models across eight equity indices, with a focus on fair benchmark design (Paper 4).

AI Research Intern — Cube Healthcare, Michigan, USA (Remote) — Jun – Aug 2024

- Built an insurance claim denial prediction model at 93% accuracy, which became my BS Final Year Project and a Q1 journal publication.
- Designed a rule-based claim scrubber and integrated ML models with claim management systems.

Apprentice, LLM Chatbot — SPCAI, PAF-IAST — Jun – Aug 2025

- Built an LLM-based chatbot that assists applicants through the university admission process.

Generative AI Intern — Insafdaar, Abbottabad — Jul – Sep 2024

- Built generative AI solutions for legal-domain problems within a team of AI interns.

TEACHING EXPERIENCE

Lab Engineer — Department of Computer Science, PAF-IAST — Jul 2025 – Present

- Instruct the Object-Oriented Programming Laboratory, coaching students in debugging, clean code and efficient solutions.

Professional BI Trainer — Khyber Pakhtunkhwa Information Technology Board (KPITB) — Jun – Sep 2026

- Delivered a 144-hour, three-month Power BI and business intelligence workshop to 50+ graduates, 80% hands-on.

Teaching Assistant — PAF-IAST — Jan – Jun 2025

- Supported Project Management and Project Management Tools: graded quizzes and assignments, prepared course materials.

SOFTWARE DEVELOPMENT EXPERIENCE

- **Software Developer Intern**, ByteEdge Software Solutions, Jalalabad · Jul – Aug 2024 — hospital management system in ASP.NET.
- **Software Application Developer Intern**, PAF-IAST Software Cell · Jul – Aug 2023 — Windows LMS features with SQL Server; CMS modules in ASP.NET.
- **CMS Developer Intern**, PAF-IAST · Apr – Jun 2022 — customized the university's Moodle CMS.

HONORS AND AWARDS

2021	Allama Iqbal Scholarship for Afghan Students, Higher Education Commission (HEC) of Pakistan; competitive, exam-based award that supported my BS at PAF-IAST.
2023	Winner, Robo Tech 01 Competition, PAF-IAST.
2019	Passed Afghanistan's national Kankor Examination with merit-based admission to BS Computer Science.

TECHNICAL SKILLS

Deep learning	PyTorch, TensorFlow, Keras, scikit-learn; CNNs, RNN/LSTM, weakly supervised learning, MC Dropout, calibration, selective prediction, Grad-CAM++
Medical imaging	DICOM processing, HU windowing, RSNA ICH and BHX datasets
Programming	Python, C++, C#, SQL, MATLAB; Flask, ASP.NET
Data and tools	Power BI, Hugging Face, Kaggle GPU workflows, Git/GitHub

WORKSHOPS, SERVICE AND CERTIFICATIONS

- **Research Methodologies Workshop**, University of Salford, UK · Dec 2025
- **Embedding Sustainability in Research & Practice**, University of Salford, UK · Nov 2025
- **AI Conference & Expo 2024**, PAF-IAST · May 2024; university representative for the conference, 2024 – present
- **Student Mentor**, PAF-IAST Software Cell · 2023 – present
- **Certifications:** Google Advanced Data Analytics (2025) · Fundamentals to Become a Machine Learning Engineer, LinkedIn (2025) · The Nuts and Bolts of Machine Learning, Google (2024) · Google Project Management (2023)
